

Graduation Requirements and Scheduling Info 2019-2020

How many credits do I need to graduate?

23!

This is CMHS's requirement; it is different from the state minimum of 20. To graduate from CMHS, you must have at least 23 credits.

What courses do I have to have to graduate?

- 4 English credits
- 4 math credits (at least one has to be Algebra II or the equivalent)
- 3 science credits (including a life science [Biology], a physical science [Physical Science or Chemistry], and an “advanced” science [Anatomy I/II, Zoology, Chemistry, most CCP science courses])
- 3 social studies (including World History, U.S. History, and Government)
- ½ credit of health
- ½ credit of physical education (or the waiver with an additional ½ elective credit)
- 1 fine art credit (music classes or art classes)
- personal finance coursework**
- 6.5 elective credits (pretty much anything else you take not listed above OR more courses than you needed above [example: if you take 5 English or math courses, one will be elective credit])

**built into World History for Class of 2021

PE Waiver Information

- The Ohio Department of Education allows for a PE waiver for a student who has “participated in interscholastic athletics, marching band, or cheerleading for at least two full seasons.”
 - You cannot complete the waiver for Falconaires, Falconettes, Winter Guard, Winter Percussion, or lacrosse.
- At CMHS, you can complete the waiver with one season of two different sports or two different seasons of the same sport.
 - For example, you could complete it with a full season of marching band and softball OR you could complete it with 9th-grade volleyball and 10th-grade volleyball
- If you complete the waiver, you will receive no credit. As such, you will have to complete an extra $\frac{1}{2}$ credit elective (to make up for the $\frac{1}{2}$ PE credit that would have received).

- If you are planning to complete the waiver, you must complete the following steps:
 - Indicate on your course request form that you are doing the waiver
 - Fill out the PE waiver form during your seasons (it’s available online and in the counseling office)
 - Give your signed and completed forms to Mrs. Running
- From there:
 - Mrs. Running will verify that you completed the full season
 - Mrs. Running will keep your forms until you have completed two seasons
 - Mrs. Running will notify Mrs. Potts and/or Ms. Beres that you have completed the waiver
 - Mrs. Potts or Ms. Beres will create a “PE waiver” course on your transcript

Honors Diploma

If you want to graduate with honors, you need $\frac{7}{8}$ of the following requirements:

- 4 credits in English
- 4 credits in math (two must be Algebra II and beyond)
- 4 credits in science (two must be an “advanced” science)
- 4 credits in social studies
- 3 credits in foreign language (or 2 credits each of two different foreign languages, for 4 credits total)
- 1 fine arts credit
- Unweighted GPA of at least 3.500
- A composite ACT score of at least 27

What Else do I Have to do to Graduate?

You must demonstrate that you are “graduation ready” on one of the three pathways:

- Earn at least 18 points on Ohio’s End-of-Course (EOC) exams
- Earn your industry credential and workforce readiness (this is only for students at a career center)
- Earn “remediation free” scores in math and English on the ACT or SAT

Class of 2020 only: Ohio has approved “Alternate Pathways” for graduation if you do not get your points or do not have college-ready ACT scores. We will discuss these as needed your senior year once more info has been released.

Industry Credential and Workforce Readiness--Career Center Students

- You can earn 12 points IF you receive a credential in a single career field from a State Board of Education-approved program (such as one of the career centers) AND
- You earn the industry-required score on WorkKeys, a work-readiness test
- The State of Ohio will pay for you to take the WorkKeys test one time

End-of-Course Exams (EOC Exams)

Earn at least 18 points on the EOC tests:

Algebra I (or Int. Math I)*	Geometry (or Int. Math II)*	Biology*^
English I*	English II*	U.S. History^
Government^		

*the state requires that you sit for this test

^if you take this course under College Credit Plus, you can substitute your course grade for your EOC score

- You must have a minimum of four points in math, a minimum of four points in English, and a minimum of six points in science and social studies. You must have an extra four points in any other test (total 18).

EOC Points

<u>Points</u>	<u>Performance Level</u>
1	Limited
2	Basic
3	Proficient
4	Accelerated
5	Advanced

- Aim for a “3” on every test.
- It’s okay to have some lower scores; higher scores on other tests can help balance out lower scores.
- If you score a 1-2 on any test, most likely you will be asked to retake the test so that you have a chance to raise your score.
- You can retake the tests as many times as you want to do so.

College/Career Readiness Tests--ACT and SAT

You can also show “graduation readiness” through the following scores:

<u>Subject</u>	<u>ACT</u>	<u>SAT</u>
ELA	English--18 or higher Reading--22 or higher	Evidence-Based Reading and Writing (EBRW) of 480 or higher
Math	22 or higher	530 or higher

- These are subject to change every year (change has to be made by February 1 of your junior year)
- Ohio pays for all juniors to take the ACT in the spring

Scheduling for 2019-2020

- First, look at the course book (shared on your email) and talk to teachers about your options
- Second, decide which courses you need to take
- Third, decide which courses you want to take

026 Government & Applied Social Studies |

Prerequisite: None

Grade: 11,12

Length: Year

Credit: 1

Fee: None

Students will focus on the structure, concepts, and principles of American Government through an emphasis on timely as well as enduring issues related to our nation's governance. Students will examine such topics as U.S. Constitution, bill of rights, federalism, law and justice. Students will spend one quarter dealing with economic concerns like deficit spending, market economy, and supply and demand. Students will be encouraged to participate as active citizens in the community. The skills of issue identification, data collection, problem-solving, and critical analysis will be emphasized. In addition, students will use primary source materials, engage in debates, simulations, and discussions, and write about enduring as well as contemporary issues. Students will complete the Government End-of-Course Assessment at the conclusion of this course.

What do you have to take before you can take this class?

115 Ceramics and Sculpture I

Prerequisite: [111](#) Grade: 10,11,12 Length: Year Credit: 1 Fee: \$65

This course primarily focuses on the use of clay to create ceramics with time also spent learning about and experiencing other 3-D media like Model Magic, Papier Mache, and Wire. This is a studio-based class but due to the nature of the media, textbook work and quizzes are a part of this class. The Supply Materials Fee covers all art media/supplies necessary for this class.

What will I learn in this class?

- For electives, it's important that you actually read the course description to see if you are interested; if you're not, choose another class!
- Teachers/counselors can help you to choose--ask if you need help.

What Else is in the Course Book?

Let's just take a look:

https://docs.google.com/document/d/1PtXQjDpPWdaz4wFRmcB_-jel--g3dtFfn_W6kH21IOk/edit?ts=5c736dcf#heading=h.hzc23unciw5z

What if I am taking CCP Courses?

- If you are taking an online class, you can elect to take a study hall, during which you can work on your class(es). C-M College will not be returning, but you will likely be allowed to have library privileges (like this spring).
- If you are taking off-campus courses (in person), do your best to schedule your courses off-campus so that you can be here for part of the day and take the CMHS courses you want.

What if I am Going to a Career Center?

- If you are accepted, and you are definitely attending, you do not need to fill out a scheduling form.
- If you were conditionally accepted, and you may be staying at CMHS next year, fill out a scheduling form and put a note on it that you may not be here.
- If you attend a career center, the counselors there will help to schedule your classes.

So Now What?

- Fill out your “2019-2020 Course Requests” and get teachers’ signatures and your parent/guardian signature.
- Forms will be due to the counseling office no later than March 15. After this time, your counselor will choose classes for you based on your graduation needs.
- Make sure that you select enough electives; if you don’t, we have to choose for you.
- Make sure that you rank your electives by which you most want; this way we know what you really want to take.

When Will I Have a Schedule?

- After all scheduling forms are submitted, we will see how many students want to take each class; from there, we can build a schedule.
- Once we have a successful schedule, we will begin assigning students to classes. Most likely, you will what your schedule will be in early May.
- We do not want a chaotic return to school; our goal is to have you placed in the classes you need/want before we leave school this spring. By choosing your courses carefully and thoughtfully, you can assist us in this process.
